From Arizona the Buckeye Air Fair / Arizona Military Vehicle Show.

Today we are off to Arizona as set the wayback machine to 16 February and the Buckeye Air Fair / Arizona Military Vehicle Show. What a great turn out with over 30,000 in attendance and over 60 military vehicles from our friends at the [Arizona Military Vehicle Collectors Club](#), MVETS and several other groups also participated. This was defiantly an impressive display with vehicles and tanks from World War One thru today's conflicts. Besides the Military vehicles displays, there was a great WW2 German and French living history display covering the Battle of France by one of the local reenactor groups. There was plenty of venders on site from militaria to general merchandise and of course food. The airshow itself, what can you say other than everyone loves Airshows. Warbirds on display, flyovers, Acrobatic demonstrations, flyovers, Parachute teams and fireworks in the evening. You just could not ask for better. Sam Moore stated that they have been partnered with the Buckeye Air Fair since 2022 and this looks to be the best yet. We want to thank Sam Moore for providing us the background on the show, photos and frankly reminding us that Military vehicles and Aircraft are a great mix.. PC Dan Parmely Jr, Maricopa Community College Veterans Group - MVETS, Sam Moore, and Rob Lippert . .
